The pull out map was also an excellent feature. The book is very inclusive -- it discussed almost everything a tourist might want to see in Arizona. My only complaint is that certain topics really would benefit more content. For example, Sedona is a very popular and well-known destination, but only a few pages are devoted to it. It had been many years since I have been to the Grand Canyon. I bought this to get more ideas on what to do. It helped me greatly. The book doesn't mention the glass platform over the Canyon on West Rim called Skywalk, probably because the opening of the platform took place in March this year.
