

The Great Big Giant Turnip: Set Of 6 / Benchmark Education Company, 2010 / Carol Pugliano-Martin / 2010

The specific ordering and set of people and sometimes animals varies. However, in the original Russian version the order is quite fixed, it is the grandfather (dedka), the grandmother (babka), the granddaughter (vnuchka), the female-dog (zhuchka), the female-cat (koshka) and finally the female-mouse (myshka). The humour in the story is that only with the help of the weakest and smallest creature (the mouse) can the giant turnip (repka) be pulled up. One of the unfinished projects of award-winning illustrator Ezra Jack Keats was a version of "The Giant Turnip"; artwork for the book was published in the 2002 collection Keats's Neighborhood: An Ezra Jack Keats Treasury.[4]. The idea of finding a giant turnip really tickled my fancy, and I couldn't stop thinking about it. How could I make my story different from the old Russian tale? I decided to use animal characters. I modeled the badger family after the European badger, with its striking coat and mischievous expression. They were the first to tackle the giant turnip. The story is pretty cute, with a clever ending, but the illustrations are what really set it apart. It is not just the illustrations of the actions, but there are borders and side pictures with amazing details paying homage to Russian art. flag 2 likes Like see review. Tuesday, September 7, 2010. The Giant Turnip is a 19th century children's tale that originates from Russia, but has since been retold by many people including, most notably, Ladybird Books. The story varies, but the traditional story tells the tale of a farmer who plants a turnip and when harvest time comes he can't pull it out of the ground himself, so he asks a variety of people (and animals) to help him.
