She is the author of several books, including The Color of Justice: Race, Ethnicity, and Crime in America (with Sam Walker and Miriam DeLone) and How Do Judges Decide? The Search for Fairness and Equity in Sentencing. She has published a number of articles examining prosecutors' charging decisions in sexual assault cases and exploring the effect of race/ethnicity on charging and sentencing decisions. Drug-related crimes, particularly violent crimes, can be difficult to solve in a timely fashion. Witnesses may be reluctant to come forward or may be unreliable. In some cases, drug-related violence is seen as "part of doing business," reducing sympathy for the victim and making others less likely to get involved. While this is an overly simplistic interpretation of the results, the most salient fact to emerge from this analysis was that certain areas were associated with an increased risk for drug-related violence (Figure 11-5). Figure 11-5. Drug-related violence models can be deployed through the use of mapping tools. Drugs and Crime Facts. Release on 1992 | by.
