It is research based but written to help teachers. The text provides evidence-based interventions for improving reading skills as well as guidance on assessment and monitoring. 9. Guiding Readers - Layers of Meaning: A handbook for teaching reading comprehension to 7-11-year-olds. Reading comprehension is the ultimate goal when teaching your child to read. After all, when a child struggles with comprehension, reading can be a miserable chore. Wouldn't it be nice if you could find some easy-to-follow ideas to help you nurture this ability? Good news! There are many different ways to help develop your child's reading comprehension! In this article, you'll discover why reading comprehension is so important, explore strategies for developing this skill, and find out how we teach reading comprehension in the All About Reading program. The delight of reading awaits your child Reading comprehension involves three distinct components: processing text (sounding out the syllables to decode the words), understanding what was read, and making connections between the text and what you already know. Vocabulary Knowledge vs. Text Comprehension. Vocabulary knowledge and text comprehension are two vital elements of reading comprehension.Â Because vocabulary knowledge is essential to reading comprehension, children should be exposed to a rich vocabulary and should always be learning new words. Parents and teachers can help by defining potentially unfamiliar words that students will encounter in texts and teaching students to use contextual clues to understand the meaning of new words. Essential Elements of Fostering and Teaching Reading Comprehension 53. How Skilled Comprehenders Construct Meaning. Over the past 20 years, cognitive psychologists have reached broad consensus on the nature of comprehension. Of all the current models of comprehension, Kintsch's (1998, 2004) Construction-Integration model.Â much higher when students were reading on a topic of interest. Too often, we think of a student in regards to a predetermined reading level (e.g., M, magenta, 16), when in reality, as this and other studies have shown, a student's reading level varies depending on his or her interest in the text, as well as other factors, including background knowledge, as discussed earlier in this chapter.
