Functional Training for Sports: Superior Conditioning for Today's Athlete

By Mike Boyle

Human Kinetics Publishers. Paperback. Book Condition: new. BRAND NEW, Functional Training for Sports: Superior Conditioning for Today's Athlete, Mike Boyle, Reach a higher level of athleticism with "Functional Training for Sports"! Functional training is a complete system of athletic development that focuses on training the body the way it will be used in competition, making it the most efficient and effective form of training today. Author Mike Boyle, renowned strength and conditioning coach formerly with the Boston Bruins, addresses movement, body positions, and abilities that are essential for success in competition. Through "Functional Training for Sports", you will improve your total athleticism, enhance your performance, and reduce injuries through exercise progressions that will spur your development potential for specific movement patterns you commonly use in your sport. Providing tests for you to determine where to start, the progressions focus on training for the torso, the upper body, and the lower body. The book also provides detailed programs that incorporate the exercises and methods for these progressions. As you master each progression, you will be preparing yourself to perform in any situation with notable improvements in stability and balance, reaction time, core strength, and power. This whole-body, sport-applied system makes "Functional..."

PDF Drive investigated dozens of problems and listed the biggest global issues facing the world today. Let's Change The World Together. Pdfdrive:hope Give books away. Specificity is key when training athletes, and many times this is overlooked by different training programs. It has been my experience that in the strength training community General Physical Preparedness (GPP) is the foundation for all levels. Note that nothing we do in the weight room is sport specific, it is merely training the body to move correctly on the field of play. An athlete that has been getting ready for a skill position in football will taper off on heavy movements and try to maintain all the attributes they have gained throughout the season. A coach must learn to monitor fatigue, overuse, nutrition, and rest to balance the program for each. Ask yourself every day, what can we do and what can't we do, enable them to do what they do! A lot of athletes go for sports bars, gels, or sports drinks because they are convenient. However, fresh fruit and fruit choice are excellent options that you should opt for. Learn steps to create a healthy diet plan and ways to build a strong body with ease. In case that you lose a lot of fluid sweating, it is recommended that diluting sports drinks with the similar amounts of water to get the best balance of electrolytes and fluid. 7. Salt Might Be What The Doctor Ordered. Maintain nutritional conditioning not only for athletic events, but all the time. The above tips on nutrition for athletes hopefully can help you, as an athlete, to create a healthy diet plan and improve athlete performance effectively. Leave your words at the end of this post of nutrition for athletes to let us know your thoughts.

Functional training has its roots in professional sports, where specific movement sequences are trained that have a direct transfer to the athlete’s sport. Hence the word part “functional.” It is based on the function that the body parts have to fulfil during the game or competition. Muscles are not seen as lone fighters, but as gears in a clockwork. Training for everyday use. Since functional training often gets by with your own body weight as training resistance, it can be scaled very well and is suitable not only for professional athletes, but also for everyday athletes. It quickly brings improvements in everyday situations where the interaction of entire muscle chains plays an important role. For example, when carrying a water tray or heavy shopping bags. Functional Training for Sports, Rehabilitation, Strength & Conditioning. Today I finished the course of Kettlebell Training run by Senior Coach Giacomo Longo and I must admit that, even though it is my fourth course with the WTA, there is always, always, something to learn and the teacher was impeccable with his desire to transmit and his exceptional physical and theoretical preparation. Functional training had become the key part of my training, so I needed to find something or someone that could help me make the difference and luckily, I discovered the WTA Functional Training Academy. Absolutely the best! Sport Management and Sport Business, Sports and Activities, Strength Training and Conditioning. E-PRODUCTS. Apps, e-Books, Webinars. My e-Products. Video on Demand.
