

Reading the Past: Current Approaches to Interpretation in Archaeology - 9781139440424 - Ian Hodder, Scott Hutson - 2003 - Cambridge University Press, 2003

Reading the past is Hodders first book where he explicitly describes the new post-processual archaeology and give critics about the processual (and other) approach. Truly a paradigm-shift, this book is the first book that covers the basic ideas of post-processualism Read more.Â This is a must for all that face with archaeological theory questions and struggle with interpretation of the past. Regardless if you agree with the post processional way of thinking, this book defines in a plain manner a lot of theoretical terms like structuralism semiotics symbolism that can be used in the archaeological interpretation. It also gives some guidance and stimulates reasoning by providing alternative perspectives.. Ian Hodder and Scott Hutson argue that archaeologists must bring to bear a variety of perspectives in the complex and uncertain task of 'translating the meaning of past texts into their own contemporary language'. While remaining centred on the importance of meaning, agency and history, the authors explore cutting-edge developments in areas such post-structuralism, neo-evolutionary theory and phenomenology Reading the Past.
