

The Enterprise of England: An Account of Her Emergence as an Oceanic Power // 1958 // Faber & Faber, 1958 // Thomas Woodrooffe

The enterprise of England. an account of her emergence as an oceanic power. This edition was published in 1958 by Faber and Faber in London. Classifications. Dewey Decimal Class. 942.05. Library of Congress. DA86 .W6 1958. ID Numbers. Open Library. OL6242846M. Internet Archive. enterpriseofengl0000wood. The book chronicles the sweeping history of enterprise in Mesopotamia and Neo-Babylon; carries the reader through the Islamic Middle East; offers insights into the entrepreneurial history of China, Japan, and Colonial India; and describes the crucial role of the entrepreneur in innovative activity in Europe and the United States, from the medieval period to today. The importance of history to understanding entrepreneurship cannot be underestimated. Through history, we see the power, the resilience, and the complexity of this phenomenon. We gain a better understanding of the changing nature of entrepreneurial activity over time. We learn more about the complex web of social and institutional influences on entrepreneurship. The Making of England book. Read reviews from world's largest community for readers. During the tenth century England began to emerge as a distinct count... Mark Atherton here shows how During the tenth century England began to emerge as a distinct country with an identity that was both part of yet separate from 'Christendom'. The reigns of Athelstan, Edgar and Ethelred witnessed the emergence of many key institutions: the formation of towns on modern street plans; an efficient administration; and a serviceable system of tax.
