Celtic tribes called the Piets penetrated into the mountains on the North; some Piets as well as tribes of Scots crossed over to Ireland and settled there. Later the Scots returned to the larger island and settled in the North beside the Piets. They came in such large numbers that in time the name of Scotland was given, to that country.Â The Iberians were unable to fight back the attacks of the Celts who were armed with metal spears, swords, daggers and axes. Most of the Iberians were slain in the conflict; some of them were driven westwards into the mountains of what is now Wales and the others probably mixed with the Celts. We know more about the Celts than about the earlier inhabitants of the island, because of the written accounts that exist. Various designs of Celtic houses have been reconstructed and these models demonstrate highly sophisticated building techniques. They dominated over the majority of the extremely diverse population groups that are known to have inhabited certain regions at that time in Europe.Â But to exactly trace the lineage of the Celts back to antiquity is very difficult because of a lack of written history of Europe in distant past. The Celts exerted a strong influence on other European inhabitants, which is still visible, particularly in the culture of Wales, Ireland, and Scotland. Celtic women had more options and independence than women in Greece or Rome; writers such as Diodorus, Siculus, and Tacitus describe women who fought as warriors or served as tribal rulers.

The Celts are a collection of Indo-European peoples in parts of Europe and Anatolia identified by their use of the Celtic languages and other cultural similarities. The history of pre-Celtic Europe and the exact relationship between ethnic, linguistic and cultural factors in the Celtic world remains uncertain and controversial. The exact geographic spread of the ancient Celts is disputed; in particular, the ways in which the Iron Age inhabitants of Great Britain and Ireland should be regarded as Celts. Much that is known of the Celts, apart from their weapons and ornaments, has come to us from their enemies, the Romans. Yet we can assemble a portrait of a cultured people. The Roman Empire, which ruled much of southern Europe at that time, referred to the Celts as "Galli," meaning barbarians. However, the Celts (pronounced with a hard "œc" or "œk" sound) were anything but barbarians, and many aspects of their culture and language have survived through the centuries. The oldest living Yew tree in Europe is said to be the Fortingall Yew in Scotland, near Loch Tay and it has been estimated to be between 3,000 and 9,000 years old. The Celts associated the Yew with everlasting life. The Druids believed in the 'natural law of reincarnation' where the soul becomes reborn as another person. The Yew was seen as a protector of the soul during the journey to the Otherworld. Its needles were also used in rituals to communicate with the dead.
