Science et technologie - Cour+TD. School. Hisoka Gaming Dz. The social sciences and humanities cannot be dismissed as purely subjective because they are ontologically subjective. Human choice is a subjective reality (ontology) about which we can derive objective knowledge (epistemology). Section 5.6, Leibniz Law. This is where this book shines, it's basically a compendium of the most important concepts in Philosophy. The selection goes from the basics of an argument to how to formulate radical critiques of knowledge systems. In this little book I've been able to find organized models that I've spent months trying to decipher. Sociologie de la science book. Read reviews from world's largest community for readers.
