To bring the educational process and actual practice closer together, there needs to be a reciprocal relationship and thus mutual understanding. Much has been written on how academics need to understand the practitioner perspective better, and I applaud such efforts; but if the relationship is to be truly reciprocal, practitioners also need to understand how knowledge is generated in organizational behavior. This book, with its emphasis on theory, provides a unique window to look inside the science of organizational behavior. STRUCTURE OF THE CHAPTERS After the book's introductory material, the remaining chapters follow a generally consistent format. Request PDF | On Oct 1, 2006, W. J. The conceptual definition of globalisation utilised in the entire book was stated. A mini empirical study using secondary data established that globalisation had some positive effects in Africa, but not as expected considering the growth potential in the continent. The chapter concluded that Africa was
